

# JOURNAL CATALOGUE 2021

**World Scientific** is proud to welcome you to our new 2021 catalogue featuring all our journals, including new and forthcoming ones. All our journals go through a stringent review process in ensuring that the articles are world-class and serve their respective audiences.

Our rapidly expanding journal programme has grown to include more than 140 international peer reviewed journals and has kept pace with the latest developments in scientific research, providing prompt responses to the demand for publication outlets and readership in rapidly advancing fields like nanoscience and the quantum computing.

**Worldscientific.com**, our e-platform, provides an array of services which includes free table of contents, email alerts on new issues of our journals, the latest news related to our journals, online sample articles, forthcoming papers, search functions, journal promotions and related links. Indexing and abstracting information, as well as hosting gateways are also available from the web site. The Journal homepages will also display the contents of the most current issue, so that users can look for updates with less clicks. The search engine has been further optimized so as to increase the speed which results are returned.

**World Scientific Archives** was launched in 2005 to make older content (prior to 2001) electronically accessible in subject collections. The portal contains abstracts and full-text journal articles dating back to 1973. To date, more than 30,000 articles from over 60 journals are available on this platform.

# c o n t e n t s

## About World Scientific Publishing

World Scientific Publishing is a leading independent publisher of books and journals for the scholarly, research, professional and educational communities. The company publishes about 600 books annually and over 140 journals in various fields. World Scientific collaborates with prestigious organisations like the Nobel Foundation, US National Academies Press, amongst others, to bring high quality academic and professional content to researchers and academics worldwide. To find out more about World Scientific, please visit [www.worldscientific.com](http://www.worldscientific.com)

## How to Order

You can also order online at <https://www.worldscientific.com/page/how-to-order> or from your preferred subscription agent.

## Complimentary Copies

Kindly note that sample issues for all journals are already available online. They may be downloaded from the journal's respective homepages. Complimentary print copies may also be requested via the homepages. They are subjective to availability and specific issues may not be ordered.

## Online Catalogues

We have many catalogues covering a wide ranges of subjects available online at [www.worldscientific.com/page/ecatalogues](http://www.worldscientific.com/page/ecatalogues).

If you would like a printed copy, please email us at [mkt@wspc.com](mailto:mkt@wspc.com) to request for any of them.

## Stay Updated

Join our Mailing List to be informed of our latest publications, worldwide conferences, special offers on our books and journals, and much more!

To join, please visit our website at <https://www.worldscientific.com/page/newsletter/subscribe>

## Journal of Computational Biophysics and Chemistry

Formerly known as Journal of Theoretical and Computational Chemistry

[www.worldscientific.com/jcbc](http://www.worldscientific.com/jcbc)

**Editor-in-Chief**

**Emil Alexov**, *Clemson University, USA*

*Journal of Computational Biophysics and Chemistry* (JCBC) publishes regular articles and reviews on new methodology, software, web server and database developments. The applications of existing theoretical and computational methods which produce significant new insights into important problems are also welcomed. Papers reporting joint computational and experimental investigations are encouraged.

Volume	20
Frequency	8
Print ISSN	0219-6336
Online ISSN	1793-6888

Journal of Society of Porphyrins and Phthalocyanines

## Journal of Porphyrins and Phthalocyanines

[www.worldscientific.com/jpp](http://www.worldscientific.com/jpp)

**Editor-in-Chief**

**Professor Karl M. Kadish**, *University of Houston, USA*

*The Journal of Porphyrins and Phthalocyanines* (JPP) covers research in the chemistry, physics, biology and technology of porphyrins, phthalocyanines and related macrocycles. Research papers, review articles and short communications deal with the synthesis, spectroscopy, processing and applications of these compounds.

Volume	24
Frequency	12
Print ISSN	1088-4246
Online ISSN	1099-1409

## Advances in Data Science and Adaptive Analysis

[www.worldscientific.com/adsaa](http://www.worldscientific.com/adsaa)

**Editor-in-Chief**

**Nii O. Attah-Okine**, *University of Delaware, USA*

*Advances in Data Science and Adaptive Analysis (ADSAA)* is an interdisciplinary journal dedicated to report original research results on data analysis methodology developments and their applications, with a special emphasis on the adaptive approaches. The mission of the journal is to elevate data analysis from the routine data processing by traditional tools to a new scientific level, which encourages innovative methods development for data science and its scientific research and engineering applications.

## Encyclopedia with Semantic Computing and Robotic Intelligence

[www.worldscientific.com/escr](http://www.worldscientific.com/escr)

**Editor-in-Chief**

**Phillip C-Y Sheu**, *University of California, Irvine, USA*

While the current society is information centric, the future will be knowledge centric. The challenge is how to structure, deliver, share and make use of the large amounts of knowledge effectively and productively. On the other hand, given the dynamic nature of semantic web, new information, and hence, knowledge is constantly evolving, as a result, the concept of encyclopedia will inadvertently need to evolve to keep pace with the development and revised to meet the challenge. The Encyclopedia with Semantic Computing and Robotic Intelligence (ESCRI) incorporates the recent technological advances in semantic computing and robotic intelligence which aims to develop a new model of encyclopedia that delivers quality and dynamic knowledge to both professionals and laymen.

## International Journal on Artificial Intelligence Tools

[www.worldscientific.com/ijait](http://www.worldscientific.com/ijait)

**Editor-in-Chief**

**Dr N G Bourbakis**, *Wright State University, USA & AIIS Inc, USA*

*The International Journal on Artificial Intelligence Tools (IJAIT)* provides an interdisciplinary forum in which AI scientists and professionals can share their research results and report new advances on AI tools or tools that use AI. Tools refer to architectures, languages or algorithms, which constitute the means connecting theory with applications. So, IJAIT is a medium for promoting general and/or special purpose tools, which are very important for the evolution of science and manipulation of knowledge. IJAIT can also be used as a test ground for new AI tools.

Journal of The Chinese and Oriental Languages Information Processing Society (COLIPS)

## International Journal of Asian Language Processing

[www.worldscientific.com/ijalp](http://www.worldscientific.com/ijalp)

### Editor-in-Chief

**Minghui Dong**, *Institute for Infocomm Research, Singapore*

The aim of the journal is to provide a channel for researchers working on Asian Language Processing to share their high-quality work and to promote research in this field. The scope of the journal will include the automatic processing or study of Asian languages on the following aspects: natural language processing, spoken language processing, linguistic study towards language processing, and processing for language education, among other areas.

Volume	30

## International Journal of Computational Geometry and Applications

[www.worldscientific.com/ijcga](http://www.worldscientific.com/ijcga)

Indexed in  
**SCOPUS**

### Editors-in-Chief

**D T Lee**, *Academia Sinica, TAIWAN*

**J S B Mitchell**, *State University of New York at Stony Brook, USA*

*The International Journal of Computational Geometry & Applications (IJCGA)* is a quarterly journal devoted to the field of computational geometry within the framework of design and analysis of algorithms.

Emphasis is placed on the computational aspects of geometric problems that arise in various fields of science and engineering including computer-aided geometry design (CAGD), computer graphics, constructive solid geometry (CSG), operations research, pattern recognition, robotics, solid modelling, VLSI routing/layout, and others.

Volume	30
Frequency	4

## International Journal of Computational Intelligence and Applications

[www.worldscientific.com/ijcia](http://www.worldscientific.com/ijcia)

Indexed in  
**WEB OF SCIENCE**

### Editor-in-Chief

**Bijesh Verma**, *Central Queensland University, Australia*

*The International Journal of Computational Intelligence and Applications, IJCIA*, is a refereed journal dedicated to the theory and applications of computational intelligence (artificial neural networks, fuzzy systems, evolutionary computation and hybrid systems). The main goal of this journal is to provide the scientific community and industry with a vehicle whereby ideas using two or more conventional and computational intelligence based techniques could be discussed.

Volume	19

## International Journal of Cooperative Information Systems

[www.worldscientific.com/ijcis](http://www.worldscientific.com/ijcis)

### Editors-in-Chief

**Heiko Ludwig**, *IBM Almaden Research Center, USA*

**Gunter Schlageter**, *University of Hagen, Germany*

**Vassilis J Tsotras**, *University of California - Riverside, USA*

The paradigm for the next generation of information systems (ISs) will involve large numbers of ISs distributed over large, complex computer/communication networks. Such ISs will manage or have access to large amounts of information and computing services and will interoperate as required. These support individual or collaborative human work. Communication among component systems will be done using protocols that range from conventional ones to those based on distributed AI. We call such next generation ISs Cooperative Information Systems (CIS). This journal addresses the intricacies of cooperative work in the framework of distributed interoperable information systems.

## International Journal of Foundations of Computer Science

[www.worldscientific.com/ijfcs](http://www.worldscientific.com/ijfcs)

### Editor-in-Chief

**O H Ibarra**, *University of California, Santa Barbara, USA*

*The International Journal of Foundations of Computer Science* is an eight-issue journal that publishes articles which contribute new theoretical results in all areas of the foundations of computer science. The theoretical and mathematical aspects covered include: Algebraic theory of computing and formal systems, Algorithm and system implementation issues, Approximation, probabilistic, and randomized algorithms, Automata and formal languages, Automated deduction, Combinatorics and graph theory, Complexity theory, Computational biology and bioinformatics, Cryptography, Database theory and more.

Volume	31
Frequency	8
Print ISSN	0129-0541
Online ISSN	1793-6373
Backfiles	From 2001 onwards

## International Journal of Humanoid Robotics

[www.worldscientific.com/ijhr](http://www.worldscientific.com/ijhr)

### Editors-in-Chief

**Ming Xie**, *Nanyang Technological University, Singapore*

**Juyang (John) Weng**, *Michigan State University, USA*

**Giulio Sandini**, *Italian Institute of Technology, Italy*

*The International Journal of Humanoid Robotics (IJHR)* covers all subjects on the mind and body of humanoid robots. It is dedicated to advancing new theories, new techniques, and new implementations contributing to the successful achievement of future robots which not only imitate human beings, but also serve human beings. While IJHR encourages the contribution of original papers which are solidly grounded on proven theories or experimental procedures, the journal also encourages the contribution of innovative papers which venture into the new, frontier areas in robotics. Such papers need not necessarily demonstrate, in the early stages of research and development, the full potential of new findings on a physical or virtual robot.

Volume	17
Frequency	6
Print ISSN	0219-8436

Backfiles	From 2004 onwards

## International Journal of Image and Graphics

[www.worldscientific.com/ijig](http://www.worldscientific.com/ijig)

### Editors-in-Chief

**David Zhang**, *Hong Kong Polytechnic University, Hong Kong*

**Yong Xu**, *Harbin Institute of Technology, China*

*International Journal of Image and Graphics (IJIG)* will emphasize on efficient and effective image and graphics technologies and systems, and provide a central forum for scientists, researchers, engineers and vendors from different disciplines to exchange ideas, identify problems, investigate relevant issues, share common interests, explore new directions, and initiate possible collaborative research and system development. This journal will significantly benefit a large variety of academic and industrial sectors.

Volume	20
Frequency	4
Print ISSN	0219-4678
Online ISSN	1793-6756
Backfiles	From 2001 onwards

## International Journal of Information Technology & Decision Making

[www.worldscientific.com/ijitdm](http://www.worldscientific.com/ijitdm)

### Editor-in-Chief

**Yong Shi**, *University of Nebraska at Omaha, USA & Chinese Academy of Sciences, China*

*International Journal of Information Technology and Decision Making (IJITDM)* provides a global forum for exchanging research findings and case studies which bridge the latest information technology and various decision-making techniques. It promotes how information technology improves decision techniques as well as how the development of decision-making tools affects the information technology era. The journal is peer-reviewed and publishes both high-quality academic (theoretical or empirical) and practical papers in the broad ranges of information technology related topics.

Volume	19
Frequency	6
Print ISSN	0219-6220
Online ISSN	1793-6845
Backfiles	From 2002 onwards

## International Journal of Neural Systems

[www.worldscientific.com/ijns](http://www.worldscientific.com/ijns)

Indexed in  
SCOPUS

Indexed in  
WEB OF  
SCIENCE

IMPACT FACTOR  
**5.604**

**Editor-in-Chief**

**Hojjat Adeli**, *The Ohio State University, USA*

*The International Journal of Neural Systems* is a bimonthly peer-reviewed journal which covers information processing in natural and artificial neural systems. It publishes original contributions on all aspects of this broad subject which involves physics, biology, psychology, computer science and engineering. Contributions include research papers, reviews, short communications and Letters to the Editor.

The journal presents a fresh, undogmatic attitude towards this multi-disciplinary field, aiming to be a forum for novel ideas and improved understanding of collective and cooperative phenomena in systems with computational capabilities.

## International Journal of Semantic Computing

[www.worldscientific.com/ijsc](http://www.worldscientific.com/ijsc)

Indexed in  
SCOPUS

**Editor-in-Chief**

**Phillip C-Y Sheu**, *University of California, Irvine, USA*

Semantic Computing (SC) is defined as "Computing with (machine processable) Descriptions of Content and Intentions." It brings together those disciplines concerned with connecting the (often vaguely formulated) intentions of humans with computational content that includes, but is not limited to, structured and semi-structured data, multimedia data, text, programs, services and, even, network behavior.

*International Journal of Semantic Computing (IJSC)* addresses the computing technologies (e.g., artificial intelligence, natural language, software engineering, data and knowledge engineering, computer systems, signal processing, etc.), and their interactions, that may be used to extract or process computational content and descriptions.

Volume	14
Frequency	4
Print ISSN	1793-351X
Online ISSN	1793-7108
Backfiles	From 2007 onwards

## International Journal of Software Engineering and Knowledge Engineering

[www.worldscientific.com/ijseke](http://www.worldscientific.com/ijseke)

**Editor-in-Chief**

**S-K Chang**, *Knowledge Systems Institute, USA*

*The International Journal of Software Engineering and Knowledge Engineering (IJSEKE)* is intended to serve as a forum for researchers, practitioners, and developers to exchange ideas and results for the advancement of software engineering and knowledge engineering. A central theme of this journal is the interplay between software engineering and knowledge engineering.

Volume	30
Frequency	12
Print ISSN	0218-1940
Online ISSN	1793-6403
Backfiles	From 2001 onwards

## International Journal of Uncertainty, Fuzziness and Knowledge-Based Systems

[www.worldscientific.com/ijufks](http://www.worldscientific.com/ijufks)

**Editor-in-Chief**

**B. Bouchon-Meunier**, *Laboratoire d'Informatique de Paris 6, LIP6, France*

The International Journal of Uncertainty, Fuzziness and Knowledge-Based Systems is a forum for research on various methodologies for the management of imprecise, vague, uncertain or incomplete information. The aim of the journal is to promote theoretical or methodological works dealing with all kinds of methods to represent and manipulate imperfectly described pieces of knowledge, excluding results on pure mathematics or simple applications of existing theoretical results.

Volume	28
Frequency	8
Print ISSN	0218-4885
Online ISSN	1793-6411
Backfiles	From 2001 onwards

## Journal of Artificial Intelligence and Consciousness

Formerly known as International Journal of Machine Consciousness

[www.worldscientific.com/jaic](http://www.worldscientific.com/jaic)

**Editor-in-Chief**

**Antonio Chella**, *Università degli Studi di Palermo & ICAR-CNR Palermo, Italy*

The journal will offer a multidisciplinary platform to discuss AI and consciousness in the light of robotics and artificial systems, computational science, psychology, philosophy of mind, ethics, and neuroscience.

Volume	7
Frequency	4
Print ISSN	2705-0785
Online ISSN	2705-0793
Backfiles	From 2009 onwards

## Journal of Information & Knowledge Management

[www.worldscientific.com/jikm](http://www.worldscientific.com/jikm)

**Editor-in-Chief**

**Suliman Hawamdeh**, *University of North Texas, USA*

JIKM is a refereed journal published quarterly by World Scientific and dedicated to the exchange of the latest research and practical information in the field of information processing and knowledge management. The journal publishes original research and case studies by academic, business and government contributors on all aspects of information processing, information management, knowledge management, tools, techniques and technologies, knowledge creation and sharing, best practices, policies and guidelines.

Volume	19
Frequency	4
Print ISSN	0219-6492
Online ISSN	1793-6926
Backfiles	From 2002 onwards

## Journal of Interconnection Networks

[www.worldscientific.com/join](http://www.worldscientific.com/join)

**Editor-in-Chief**

**Francis C. M. Lau**, *The University of Hong Kong, China*

*The Journal of Interconnection Networks (JOIN)* is an international scientific journal dedicated to advancing the state-of-the-art of interconnection networks. The journal addresses all aspects of interconnection networks which include structure, function, application and management in a variety of pervasive systems at the biological, cyber, physical and social level. Original research articles, both theoretical and applied, are solicited. Expository papers, which survey a matured or an emerging field, are also welcome.

Volume	20
Frequency	4
Print ISSN	0219-2659
Online ISSN	1793-6713
Backfiles	From 2001 onwards

## Journal of Medical Robotics Research

[www.worldscientific.com/jmrr](http://www.worldscientific.com/jmrr)

**Editor-in-Chief**

**Jaydev P. Desai**, *Georgia Institute of Technology, USA*

*The Journal of Medical Robotics Research (JMRR)* invites fundamental scientific and technological contributions as well as clinical evaluation studies in several areas, including, but not limited to: Robot-assisted Surgery, Image-guided Interventions, Rehabilitation Robotics, Assistive Robotics, Surgical simulation, Image-guided Diagnosis and Therapy, Nano-scale and micro-scale Interventions, Telesurgery, Haptics for Medical Robotics, Smart instrumented tools for surgery, Surgical Navigation, Surgical Workflow and Wearable Rehabilitation System.

Volume	5
Frequency	4
Print ISSN	2424-905X
Online ISSN	2424-9068
Backfiles	From 2016 onwards

## New Mathematics and Natural Computation

[www.worldscientific.com/nmnc](http://www.worldscientific.com/nmnc)

**Managing Editor:** Shu-Heng Chen, *National Chengchi University, Taiwan*

The journal has demonstrated there is room for artificial intelligence & modern control theory in contributing solutions to some selected economic problems. We shall continue to explore other possibilities. A new initiative on cognitive science and economics is a good example.

Over the years, this journal has published some papers on pattern recognition, image processing, and natural languages vis-a-vis artificial intelligence. We welcome any proposal on worthy new initiatives.

Volume	16
Frequency	3
Print ISSN	1793-0057
Online ISSN	1793-7027
Backfiles	From 2005 onwards

## Parallel Processing Letters

[www.worldscientific.com/ppl](http://www.worldscientific.com/ppl)

**Editor-in-Chief:** A Adamatzky, *University of the West of England, UK*

*Parallel Processing Letters* (PPL) aims to rapidly disseminate results on a worldwide basis in the field of parallel processing in the form of short papers. It fills the need for an information vehicle which can convey recent achievements and further the exchange of scientific information in the field. Letters of high scientific quality containing original results will be published. Experimental results are also welcome for publication if they contain an analysis corresponding to an abstract model of computation.

Volume	30
Frequency	4
Print ISSN	0129-6264
Online ISSN	1793-642X
Backfiles	From 2001 onwards

## Vietnam Journal of Computer Science

[www.worldscientific.com/vjcs](http://www.worldscientific.com/vjcs)

**Editor-in-Chief:** Ngoc Thanh Nguyen, *Wroclaw University of Science and Technology, Poland*

VJCS strives to cover all aspects of working out new technologies for knowledge engineering, creating intelligent systems and processing data. Papers also highlight advances in use of knowledge engineering technologies and intelligent systems for solving tasks in management, industry, engineering, administration, and education, and evaluations of existing intelligent systems and tools, emphasising comparative studies and user experiences.

## Annals of Financial Economics

[www.worldscientific.com/afe](http://www.worldscientific.com/afe)

**Editor-in-Chief**

**Michael McAleer**, *Asia University, Taiwan*

This journal offers a specialized forum for applied research on investments in various financial markets, market microstructures, asset pricing and regulation of financial markets. Papers employing econometric or empirical methods in the research design and focusing on empirical testing of both financial theories and applications in financial economics are encouraged. This journal is not suitable for papers devoted solely to pure theory or survey articles with inadequate econometric analysis.

Frequency	2
Print ISSN	2010-4952
Online ISSN	2010-4960
Backfiles	From 2012 onwards

## Asian Case Research Journal

[www.worldscientific.com/acrj](http://www.worldscientific.com/acrj)

**Editor-in-Chief**

**Li-Qun Wei**, *Hong Kong Baptist University*

*The Asian Case Research Journal's* principal objective is to provide case instructors, whether academics, consultants, or company in-house trainers, a selection of high-quality cases on Asian companies and MNCs operating in Asia-Pacific. These cases, not having been previously published, provide a fresh and topical pool of cases for teaching purposes.

The cases are either decisional — that is, requiring some business decision from the reader — or illustrative in nature, such as reasons for a firm's success. The cases come from various business disciplines including strategic management, marketing, organizational behavior/human resources, operations management, and MIS.

## Asia-Pacific Journal of Operational Research

[www.worldscientific.com/apjor](http://www.worldscientific.com/apjor)

**Editor-in-Chief**

**Chew Ek Peng**, *NUS, Singapore*

*The Asia-Pacific Journal of Operational Research (APJOR)* provides a forum for practitioners, academics and researchers in Operational Research and related fields, within and beyond the Asia-Pacific region.

APJOR will place submissions in one of the following categories: General, Theoretical, OR Practice, Reviewer Survey, OR Education, and Communications (including short articles and letters). Theoretical papers should carry significant methodological developments. Emphasis is on originality, quality and importance, with particular emphasis given to the practical significance of the results. Practical papers, illustrating the application of Operation Research, are of special interest.

Frequency	6
Print ISSN	0217-5959
Online ISSN	1793-7019
Backfiles	From 2004 onwards

## Chinese Journal of Urban and Environmental Studies

[www.worldscientific.com/cjues](http://www.worldscientific.com/cjues)

**Editor-in-Chief**

PAN Jiahua, *Chinese Academy of Social Sciences, China*

*Chinese Journal of Urban and Environmental Studies* (CJUES) is a peer-reviewed journal that seeks to publish high-quality research papers and book reviews to explore a wide range of academic and policy concerns of urban and environmental studies.

Volume	8
Frequency	4
Print ISSN	2345-7481
Online ISSN	2345-752X
Backfiles	From 2013 onwards

## Climate Change Economics

[www.worldscientific.com/cce](http://www.worldscientific.com/cce)

**Editor-in-Chief**

Robert Mendelsohn, *Yale University, USA*

*Climate Change Economics* (CCE) publishes theoretical and empirical papers devoted to analyses of mitigation, adaptation, impacts, and other issues related to the policy and management of greenhouse gases. CCE is specifically devoted to papers in economics although it is understood that authors may need to rely on other fields for important insights. The journal is interested in papers examining the issue at every scale from local to global and papers from around the world are encouraged.

Frequency	4
Print ISSN	2010-0078
Online ISSN	2010-0086
Backfiles	From 2010 onwards

## Global Economic Journal

[www.worldscientific.com/gej](http://www.worldscientific.com/gej)

**Managing Editor**

Joseph Pelzman, *George Washington University, USA*

The journal seeks to publish original and innovative research, as well as novel analysis, relating to the global economy. While its main emphasis is economic, GEJ is a multi-disciplinary journal. Its content mirrors the diverse interests and approaches of scholars involved with the international dimensions of business, economics, finance, history, law, marketing, management, political science, and related areas.

Volume	20
Frequency	4
Print ISSN	1524-5861
Online ISSN	1553-5304
Backfiles	From 2019 onwards (Content prior to 2019 is available on De Gruyter)

## International Game Theory Review

[www.worldscientific.com/igtr](http://www.worldscientific.com/igtr)

**Managing Editor**

**David W K Yeung**, *Hong Kong Shue Yan University, Hong Kong*

IGTR is a refereed quarterly journal published by World Scientific. It emphasizes rigorous analysis, and will offer up-to-date insights and perspectives through original research in game theory and its applications. It welcomes game-oriented papers from all fields of study. IGTR will publish both original articles and state-of-the-art surveys, and will seek to maintain a balanced orientation between game-theoretic modeling and practical implications. Theoretical significance as well as empirical relevance are key criteria for acceptance of an article, and IGTR will be accessible to readers from a wide range of disciplines.

## International Journal of Financial Engineering

[www.worldscientific.com/ijfe](http://www.worldscientific.com/ijfe)

**Editor-in-Chief**

**George X. Yuan**, *Tongji University, China*

IJFE will feature financial engineering papers which:

- Demonstrate multidisciplinary interaction among the fundamental theoretical results of financial mathematics
- Link to practical issues of the financial industry
- Comment and encourage the implementation of new technical methods or solutions in the financial industry through the platform of financial engineering

Volume	7
Frequency	4

## International Journal of Innovation and Technology Management

[www.worldscientific.com/ijitm](http://www.worldscientific.com/ijitm)

**Editor-in-Chief**

**Alexander Brem, Ph.D.**, *University of Stuttgart, Germany*

The objectives of the journal are to develop and promote the fields of innovation and technology management by providing a platform for reporting, sharing as well as the exchange of ideas, research findings, industry best practice and trends in the selected fields. In particular, the journal will focus on the managerial issues and challenges (and ways to address them) brought about by the increasing pace of technological advancement globally. This international dimension is emphasized in order to promote greater exchange between researchers of different cultural and national background, thus contributing and enriching our knowledge in the fields of innovation and technology management.

Journal of the International Society of Professional Innovation Management (ISPIM)

## International Journal of Innovation Management

[www.worldscientific.com/ijim](http://www.worldscientific.com/ijim)

**Managing Editor**

**Joe Tidd**, *SPRU, The University of Sussex, UK*

The *International Journal of Innovation Management* (IJIM) is the official journal of the International Society of Professional Innovation Management (ISPIM). Both the IJIM and ISPIM adopt a multi-disciplinary approach to addressing the many challenges of managing innovation, rather than a narrow focus on a single aspect such as technology, R&D or new product development. Both are also international, inclusive & practical, and encourage active interaction between academics, managers and consultants.

## International Journal of Theoretical and Applied Finance

[www.worldscientific.com/ijtaf](http://www.worldscientific.com/ijtaf)

**Editor-in-Chief**

**Lane P Hughston**, *Goldsmiths College, University of London, UK*

The disciplines covered by IJTAF include: mathematical finance; financial engineering; applications of modern probability theory and stochastic analysis in finance; models for interest rate, equity, foreign exchange, commodity, credit and inflation-linked products; portfolio theory; quantification of risk; applications of optimisation, control and filtering theory in finance; statistical analysis of financial data; computational and numerical methods in finance; calibration, stress-testing and institutional implementation of financial models; modelling issues arising in regulatory aspects of the financial markets; and modelling issues arising in incomplete and emerging markets, and in new product areas.

## Journal of Developmental Entrepreneurship

[www.worldscientific.com/jde](http://www.worldscientific.com/jde)

**Editor**

**Peter Koveos**, *Syracuse University, USA*

The *Journal of Developmental Entrepreneurship* (JDE) provides a forum for the dissemination of descriptive, empirical, and theoretical research that focuses on issues concerning microenterprise and small business development, especially under conditions of adversity. The intended audiences for JDE are scholars who study issues of developmental entrepreneurship and professionals involved in governmental and non-governmental efforts to facilitate entrepreneurship in economic and community development programs around the world.

## Journal of Enterprising Culture

[www.worldscientific.com/jec](http://www.worldscientific.com/jec)

**Editor-In-Chief**

**Wee-Liang Tan**, *Singapore Management University, Singapore*

Indexed in  
**SCOPUS**

The purpose of the Journal of Enterprising Culture is to publish conceptual, research, and/or case based works that can be of practical value to business persons, educators, students and advocates.

In addition, the Journal will also be dedicated to developing young researchers and teachers in the entrepreneurship discipline and to provide them with an opportunity to pursue more practical-oriented works. Under these circumstances, there will be a continuing flow of resource persons to serve the need of entrepreneurship research and education.

## Journal of Economics, Management and Religion

[www.worldscientific.com/jemar](http://www.worldscientific.com/jemar)

**Editor-In-Chief**

**Robert M. Sauer**

**Antonio Chella**, *Royal Holloway, University of London, UK*

This is the first academic journal specifically dedicated to exploring the Economics, Management and Religion nexus using state-of-the-art research methodologies. Original theoretical, empirical, experimental and historical analyses are all welcome, as long as the religion element of the study is substantially integrated with important ideas in Economics or Management. JEMAR also invites reviews of recent books that overlap with the topics of key interest to the journal's readership.

## Journal of Extreme Events

[www.worldscientific.com/joe](http://www.worldscientific.com/joe)

### Managing Editors

**William Solecki** (*Hunter College, City University of New York, USA*)

**Joern Birkmann** (*University of Stuttgart, Institute of Spatial and Regional Planning, Germany*)

The objective of the *Journal of Extreme Events* is to provide a forum for analysis of the occurrence, impact, and significance of extreme events on natural and human systems. The Journal will provide a range of opportunities for manuscripts including original research papers, review assessments, and science-policy statements. Readership for the journal will come from a range of academic disciplines as well as research-oriented practitioner and stakeholder professions.

## Journal of Industrial Integration and Management

Innovation & Entrepreneurship

[www.worldscientific.com/jiim](http://www.worldscientific.com/jiim)

### Editors-in-Chief

Li Cai, Jilin University, China

Shukuan Zhao, Jilin University, China

Baoshan Ge, Jilin University, China

Li Da Xu, (Advisory) Old Dominion University, USA

*The Journal of Industrial Integration and Management: Innovation & Entrepreneurship* focuses on the technological innovation and entrepreneurship of the current transition towards industrial integration and informatization. This journal aims to provide insights into challenges, issues, and solutions related to industrial integration and industrial informatization through an interdisciplinary forum for researchers, practitioners, and policy makers from perspectives of innovation and entrepreneurship.

## Journal of International Commerce, Economics and Policy

[www.worldscientific.com/jicep](http://www.worldscientific.com/jicep)

### Managing Editor

Jie Li, Central University of Finance and Economics, China

*The Journal of International Commerce, Economics and Policy (JICEP)* is a peer-reviewed journal that seeks to publish high-quality research papers that explore important dimensions of the global economic system (including trade, finance, investment and labor flows). JICEP is particularly interested in potentially influential research that is analytical or empirical but with heavy emphasis on international dimensions of economics, business and related public policy. Papers must aim to be thought-provoking and combine rigor with readability so as to be of interest to both researchers as well as policymakers.

## Market Microstructure and Liquidity

[www.worldscientific.com/mml](http://www.worldscientific.com/mml)

### Chief Editors

Jean-Philippe Bouchaud, Capital Fund Management, France

Damien Challet, CentraleSupélec, France

Charles-Albert Lehalle, Capital Fund Management, France

Mathieu Rosenbaum, University Pierre and Marie Curie (Paris 6)

*Market Microstructure and Liquidity* has been created from the strong belief that a deep understanding of market microstructure requires academic and practitioner approaches to the topic to be brought together. This idea has been largely confirmed by the success of the biennial conference, "Market Microstructure, Confronting Many Viewpoints", which was inaugurated in Paris in 2010.

The aim of the journal is to become the leading forum on market microstructure related issues (in a very broad sense) such as market design, regulation, high frequency trading, statistics of high frequency data, order books dynamics and liquidity effects at every time scale, intraday derivatives hedging and portfolio management.

## The Journal of FinTech

[www.worldscientific.com/jft](http://www.worldscientific.com/jft)

**Editor-in-Chief**

**Zvi Wiener**, *Hebrew University of Jerusalem*

The world of finance is changing dramatically as technology introduces and enables new paradigms. Banking, insurance, investments and credit analysis are all undergoing transformational changes and even the basic concept of money is no longer the same. The three basic components of FinTech are Financial Systems, Technologies and Applications. We will provide a platform for new ideas and developments in which technology based on computers and communication channels is changing the traditional approach

## The Singapore Economic Review

[www.worldscientific.com/ser](http://www.worldscientific.com/ser)

**Editor**

**Euston Quah**, *Nanyang Technological University, Singapore*

*The Singapore Economic Review* is a general economics quarterly devoted to publishing the best policy and applied economics papers in addition to high-quality theoretical pieces. Widely regarded as a leading journal in the Asia-Pacific, it has a long history of publication on economic issues impinging on Southeast Asia and the broader Asia-Pacific region. Issues analysed are not specific to Singapore but instead highlight rigorous empirical work across diverse economic issues of the contemporary world, including macroeconomic, microeconomic, financial and social aspects, with a special emphasis on economic problems related to Asian countries. The journal also publishes papers of an interdisciplinary nature and welcomes this academic interface. It keeps scholars abreast of developments in the economic literature.

## Water Economics and Policy

[www.worldscientific.com/wep](http://www.worldscientific.com/wep)

**Editor-in-Chief**

**Prof Ariel Dinar**, *University of California, Riverside, USA*

*Water Economics and Policy* (WEP) will address the economic-policy interaction by publishing highly technical water economics research with clear relevance for policy. WEP will aim to target a wide range of economic questions at local, regional, national and international levels. It will accommodate work that is focused on specific sectors (such as urban, hydropower, irrigation, and environment) as well as work that is inter-sectoral in nature.

## International Journal of Air-Conditioning and Refrigeration

[www.worldscientific.com/ijacr](http://www.worldscientific.com/ijacr)

**Editor-in-Chief**

**Yong Tae Kang**, *Korea University, Korea*

As the only international journal in the field of air-conditioning and refrigeration in Asia, IJACR reports researches on the equipments for controlling indoor environment and cooling/refrigeration. It includes broad range of applications and underlying theories including fluid dynamics, thermodynamics, heat transfer, and nano/bio-related technologies. In addition, it covers future energy technologies, such as fuel cell, wind turbine, solar cell/heat, geothermal energy and etc.

## International Journal of Applied Mechanics

[www.worldscientific.com/ijam](http://www.worldscientific.com/ijam)

**Editors-in-Chief**

**Zishun LIU & Tiejun WANG** (*Xi'an Jiaotong University, China*)

The journal has as its objective the publication and wide electronic dissemination of innovative and consequential research in applied mechanics. IJAM welcomes high-quality original research papers in all aspects of applied mechanics from contributors throughout the world. The journal aims to promote the international exchange of new knowledge and recent development information in all aspects of applied mechanics. In addition to covering the classical branches of applied mechanics, namely solid mechanics, fluid mechanics, thermodynamics, and material science, the journal also encourages contributions from newly emerging areas such as biomechanics, electromechanics, the mechanical behavior of advanced materials, nanomechanics, and many other inter-disciplinary research areas in which the concepts of applied mechanics are extensively applied and developed.

## International Journal of Computational Methods

[www.worldscientific.com/ijcm](http://www.worldscientific.com/ijcm)

**Chief Editor**

**G R Liu**, *University of Cincinnati, USA*

The purpose of this journal is to provide a unique forum for the fast publication and rapid dissemination of original research results and innovative ideas on the state-of-the-art on computational methods. The methods should be innovative and of high scholarly, academic and practical value.

The articles can involve theory, algorithm, programming, coding, numerical simulation and/or novel application of computational techniques to problems in engineering, science, and other disciplines related to computations.

## International Journal of High Speed Electronics and Systems

[www.worldscientific.com/ijhses](http://www.worldscientific.com/ijhses)

Indexed in  
SCOPUS

### Editor-in-Chief

**Michael Shur**, *Rensselaer Polytechnic Institute, USA*

Launched in 1990, the *International Journal of High Speed Electronics and Systems* (IJHSES) has served graduate students and those in R&D, managerial and marketing positions by giving state-of-the-art data, and the latest research trends. Its main charter is to promote engineering education by advancing interdisciplinary science between electronics and systems and to explore high speed technology in photonics and electronics. IJHSES, a quarterly journal, continues to feature a broad coverage of topics relating to high speed or high performance devices, circuits and systems.

## International Journal of Reliability, Quality and Safety Engineering

[www.worldscientific.com/ijrqse](http://www.worldscientific.com/ijrqse)

### Editor-in-Chief

**Hoang Pham**, *Rutgers University, USA*

IJRQSE is a refereed journal focusing on both the theoretical and practical aspects of reliability, quality, and safety in engineering. The journal is intended to cover a broad spectrum of issues in manufacturing, computing, software, aerospace, control, nuclear systems, power systems, communication systems, and electronics. Papers are sought in the theoretical domain as well as in such practical fields as industry and laboratory research. The journal is published quarterly, March, June, September and December. It is intended to bridge the gap between the theoretical experts and practitioners in the academic, scientific, government, and business communities. Review articles and case studies are also welcome in addition to innovative works in all key areas of the journal.

[www.worldscientific.com/ijssd](http://www.worldscientific.com/ijssd)

### Editors-in-Chief

**Y B Yang**, *Chongqing University, China*

**C M Wang**, *University of Queensland, Australia*

**J N Reddy**, *Texas A&M University, College Station, USA*

The aim of this journal is to provide a unique forum for the publication and rapid dissemination of original research on stability and dynamics of structures. Papers that deal with conventional land-based structures, aerospace structures, marine structures, as well as biostructures and micro- and nano-structures are considered. Papers devoted to all aspects of structural stability and dynamics (both transient and vibration response), ranging from mathematical formulations, novel methods of solutions, to experimental investigations and practical applications in civil, mechanical, aerospace, marine, bio- and nano-engineering will be published.

## Journal of Theoretical and Computational Acoustics

(Formerly known as Journal of Computational Acoustics)

[www.worldscientific.com/jtca](http://www.worldscientific.com/jtca)

### Consulting Editor

Allan D. Pierce, *Cape Cod Institute for Science and Engineering*

### Managing Editor & Co-Editors-In-Chief

Sean F Wu, *Wayne State University, USA*

### Co-Editors-In-Chief

Steffen Marburg, *Technical University of Munich*

Topics covered by this journal include research and tutorial contributions in OCEAN ACOUSTICS (a subject of active research in relation with sonar detection and the design of noiseless ships), SEISMO-ACOUSTICS (of concern to earthquake science and engineering, and also to those doing underground prospecting like searching for petroleum), AEROACOUSTICS (which includes the analysis of noise created by aircraft), COMPUTATIONAL METHODS, and SUPERCOMPUTING. In addition to the traditional issues and problems in computational methods, the journal also considers theoretical research acoustics papers which lead to large-scale scientific computations.

Indexed in  
**SCOPUS**

### Associate Editors

**Bram Noble**, *University of Saskatchewan, Canada*

**Urmila Jha-Thakur**, *University of Liverpool, UK*

**Md Yunus**, *University of Adelaide, Australia*

*The Journal of Environmental Assessment Policy and Management* is an interdisciplinary, peer reviewed, international journal covering policy and decision-making relating to environmental assessment (EA) in the broadest sense. Uniquely, its specific aim is to explore the horizontal interactions between assessment and aspects of environmental management and decision-making, as well as the vertical interactions within the broad field of impact assessment.

Ultimately, the journal aims at identifying comprehensive approaches to environmental improvement involving both qualitative and quantitative information. As the concepts associated with sustainable development mature, links between environmental assessment and management systems become all the more essential. The focus of the journal is on policy, procedures and law covering project and policy formulation, development and implementation, public participation and the institutional basis for EA.

**Prof Phua Kok Khoo**, *WSPC*

**Ms Low Khah Gek**, *ITE*

*INNOVATION* is a world-class publication highlighting the recent work of Singapore-based researchers, their collaborations with external organisations, as well as the latest breakthroughs in science, technology and medicine from around the world. The magazine's readers include researchers from national and international research organisations and universities, CEOs and top-level business decision-makers in science and technology companies, major R&D firms, government bodies, Nanyang Technological University, and other interested individuals.

## International Journal of Wavelets, Multiresolution and Information Processing

[www.worldscientific.com/ijwmip](http://www.worldscientific.com/ijwmip)

### Editor-in-Chief

**Yuan Y Tang**, *Chengdu University, P.R. China & University of Macau, China*

*International Journal of Wavelets, Multiresolution and Information Processing (IJWMIP)* considers the current state-of-the-art theories of wavelet analysis, multiresolution and information processing as well as their applications. This journal aims at publishing papers in both the theories and applications, concentrating on the practical applications of the wavelets, multiresolution and information processing to all areas in science and engineering.

## Molecular Frontiers Journal

[www.worldscientific.com/mfj](http://www.worldscientific.com/mfj)

### Editor-in-Chief

**Professor Bengt Nordén**, *Chalmers University of Technology, Sweden*

Recognizing the need to identify and advance the important messages of science, a number of individuals gathered in Sweden to form what became known as the Molecular Frontiers Foundation. Since 2006, this organization operates as a non-profit, hosted by the Royal Swedish Academy of Sciences. Its Scientific Advisory Board, including many Nobel Prize laureates, represents expertise from a wide range of scientific disciplines.

## Proceedings of the Singapore National Academy of Science

[www.worldscientific.com/psnas](http://www.worldscientific.com/psnas)

### Editor-in-Chief

**R. Subramaniam**, *Nanyang Technological University, Singapore*

*Proceedings of the Singapore National Academy of Science*, publishes invited review and research articles with the aim of promoting interdisciplinary research in Science and Mathematics. Each volume, published twice a year, focuses on a specific topic or field and should be accessible to researchers from other scientific disciplines. Previous issues have covered the areas of Statistics, Quantum Information and Nanoscience.

Volume	14
Frequency	2
Print ISSN	0219-6077
Online ISSN	1793-7051

## Reports in Advances of Physical Sciences

[www.worldscientific.com/raps](http://www.worldscientific.com/raps)

### Chief Editor

**Ophir Flomenbom**, *Flomenbom-BPS Ltd, Israel*

*Reports in Advances of Physical Sciences* is a peer-reviewed, open access interdisciplinary physical science journal. It publishes original research articles as well as review articles in all areas of physical sciences including:

- biomedical and biophysical sciences
- pure and applied physics
- materials science, nanoscience and chemical sciences
- other interdisciplinary physical sciences for example socio-economic physics, geophysics, etc.

Volume	4

Backfiles	From 2017 onwards

## TECHNOLOGY

[www.worldscientific.com/technology](http://www.worldscientific.com/technology)

### Associate Executive Editor

**O. Berk Usta**, *MGH/Harvard*

Fashioned as a high-impact, high-visibility, top-echelon publication, this new ground-breaking journal - TECHNOLOGY - will feature the development of cutting-edge new technologies in a broad array of emerging fields of science and engineering. The content will have an applied science and technological slant with a focus on both innovation and application to daily lives. It will cover diverse disciplines such as health and life science, energy and environment, advanced materials, technology-based manufacturing, information science and technology, and marine and transportation technologies.

## Functional Materials Letters

[www.worldscientific.com/fml](http://www.worldscientific.com/fml)

**Editor-in-Chief**

**Li Lu**, *National University of Singapore, Singapore*

*Functional Materials Letters* is an international peer-reviewed scientific journal for original contributions to research on the synthesis, behavior and characterization of functional materials. The journal seeks to provide a rapid forum for the communication of novel research of high quality and with an interdisciplinary flavor. The journal is an ideal forum for communication amongst materials scientists and engineers, chemists and chemical engineers, and physicists in the dynamic fields associated with functional materials.

Volume	13
Frequency	8
Print ISSN	1793-6047
Online ISSN	1793-7213
Backfiles	From 2008 onwards

## International Journal of Computational Materials Science and Engineering

[www.worldscientific.com/ijcmse](http://www.worldscientific.com/ijcmse)

**Editors-in-Chief**

**Teng Yong NG**, *Nanyang Technological University, Singapore*

**Zishun LIU**, *Xi'an Jiaotong University, China*

**Yuan Ping FENG**, *National University of Singapore, Singapore*

The objective of the journal is the publication and wide electronic dissemination of innovative and consequential research in all aspects computational materials science and engineering, featuring the most advanced mathematical modeling and numerical methodology developments. It will aim to attract and solicit high-quality original research papers in all aspects of computational materials science and engineering with special emphasis on the most current topics of interest to the associated research communities.

## Journal of Micromechanics and Molecular Physics

[www.worldscientific.com/jmmp](http://www.worldscientific.com/jmmp)

### Editor-in-Chief

**Shaofan Li**, *University of California-Berkeley, USA*

*The Journal of Micromechanics and Molecular Physics* provides an international academic forum to disseminate fundamental researches and developments in nanomechanics and micromechanics of materials. The Journal focuses on theoretical developments, experimental innovations, and computational and simulation methods in the field of nanoscale and nanostructured materials, composite materials, defect mechanics and physics, and discovery of novel advanced materials, with emphasis on mechanics and physics of microstructures, characterization and modeling, and material design and material manufacture processing, and interrelation/coloration between material micro- and nanostructure with macroscale functions.

Volume	5
Frequency	4
Print ISSN	2424-9130
Online ISSN	2424-9149
Backfiles	From 2016 onwards

## Journal of Molecular and Engineering Materials

[www.worldscientific.com/jmem](http://www.worldscientific.com/jmem)

### Editor-in-Chief

**T. S. Andy Hor**, *Agency for Science, Technology and Research (A\*STAR), Singapore*

The journal targets at reviews, communications and regular papers in all areas under molecular materials and engineering materials. Molecular materials is an intersecting field of materials and molecular science, whereas engineering materials integrates materials research with the broad engineering field. The journal aims to publish novel, high-quality, and high-impact works in (1) materials design, synthesis and growth; (2) materials analysis and characterization; (3) materials properties and functions; (4) materials fabrication and device manufacturing; and (5) system integration and applications of materials.

Volume	8
Frequency	4
Print ISSN	2251-2373
Online ISSN	2251-2381
Backfiles	From 2012 onwards

## SPIN

[www.worldscientific.com/spin](http://www.worldscientific.com/spin)

### Chief Editor

**Stuart Parkin**, *Max Planck Institute of Microstructure Physics and Martin Luther University Halle-Wittenberg, Germany*

Spin electronics is a rapidly emerging field which is based on taking advantage of the unique properties of the spin of the electron, the nucleus and other fundamental particles, as well as that of the photon. Spin electronics has special importance as conventional electronics reaches its physical limitations.

The scope of the journal includes (but is not necessarily limited to) the following topics: Materials, Semiconductor electronics, Nanodevices, Spin injection, Spin transport, Spin transfer torque, Spin torque oscillators, Electrical control of magnetic properties, Organic spintronics, Optical phenomena and optoelectronic spin manipulation, Applications and devices, Fundamental and interdisciplinary studies

## Surface Review and Letters

[www.worldscientific.com/srl](http://www.worldscientific.com/srl)

### Editor-in-Chief

Qi-Kun Xue, *Tsinghua University, P. R. China*

This international journal is devoted to the elucidation of properties and processes that occur at the boundaries of materials. The scope of the journal covers a broad range of topics in experimental and theoretical studies of surfaces and interfaces. Both the physical and chemical properties are covered. The journal also places emphasis on emerging areas of cross-disciplinary research where new phenomena occur due to the presence of a surface or an interface. Representative areas include surface and interface structures; their electronic, magnetic and optical properties; dynamics and energetics; chemical reactions at surfaces; phase transitions, reconstruction, roughening and melting; defects, nucleation and growth; and new surface and interface characterization techniques.

## Algebra Colloquium

[www.worldscientific.com/ac](http://www.worldscientific.com/ac)

**Editor-in-Chief**

**Chongying Dong**, *University of California-Santa Cruz, USA*

*Algebra Colloquium* is an international mathematical journal founded at the beginning of 1994. It is edited by the Academy of Mathematics & Systems Science, Chinese Academy of Sciences, jointly with Suzhou University, and published quarterly in English in every March, June, September and December. *Algebra Colloquium* carries original research articles of high level in the field of pure and applied algebra. Papers from related areas which have applications to algebra are also considered for publication. This journal aims to reflect the latest developments in algebra and promote international academic exchanges.

## Analysis and Applications

[www.worldscientific.com/aa](http://www.worldscientific.com/aa)

**Editors-in-Chief**

**Tong Yang**, *City University of Hong Kong, Hong Kong*

**Ding-Xuan Zhou**, *City University of Hong Kong, Hong Kong*

*Analysis and Applications* publishes high quality mathematical papers that treat those parts of analysis which have direct or potential applications to the physical and biological sciences and engineering. Some of the topics from analysis include approximation theory, asymptotic analysis, calculus of variations, integral equations, integral transforms, ordinary and partial differential equations, delay differential equations, and perturbation methods. The primary aim of the journal is to encourage the development of new techniques and results in applied analysis.

Volume	18
Frequency	6

## Asian-European Journal of Mathematics

[www.worldscientific.com/aejm](http://www.worldscientific.com/aejm)

**Chief Editor**

**K P Shum**, *Yunnan University, China*

*Asian-European Journal of Mathematics* is an international journal which is devoted to original research in the field of pure and applied mathematics. The aim of the journal is to provide a medium by which new ideas can be discussed among researchers from diverse fields in mathematics. It publishes high quality research papers in the fields of contemporary pure and applied mathematics with a broad range of topics including algebra, analysis, topology, geometry, functional analysis, number theory, differential equations, operational research, combinatorics, theoretical statistics and probability, theoretical computer science and logic.

Volume	13
Frequency	8
Print ISSN	1793-5571
Online ISSN	1793-7183

## Bulletin of Mathematical Sciences

[www.worldscientific.com/bms](http://www.worldscientific.com/bms)

**Executive Editors and Editors-in-Chief**

**Efim Zelmanov**, *University of California, San Diego, USA*

**S. K. Jain**, *King Abdulaziz University, Jeddah, Saudi Arabia; Ohio University, Ohio, USA*

**Ahmed Alsaedi**, *King Abdulaziz University, Jeddah, Saudi Arabia*

The Bulletin of Mathematical Sciences, a peer-reviewed, open access journal, will publish original research work of highest quality and of broad interest in all branches of mathematical sciences. The Bulletin will publish well-written expository articles (40-50 pages) of exceptional value giving the latest state of the art on a specific topic, and short articles (up to 15 pages) containing significant results of wider interest. Most of the expository articles will be invited.

Volume	9
Frequency	3

## Communications in Contemporary Mathematics

[www.worldscientific.com/ccm](http://www.worldscientific.com/ccm)

**Editors-in-Chief**

**Haïm Brezis & Yi-Zhi Huang**, *Rutgers University, USA*

With traditional boundaries between various specialized fields of mathematics becoming less and less visible, Communications in Contemporary Mathematics (CCM) presents the forefront of research in the fields of: Algebra, Analysis, Applied Mathematics, Dynamical Systems, Geometry, Mathematical Physics, Number Theory, Partial Differential Equations and Topology, among others. It provides a forum to stimulate interactions between different areas. Both original research papers and expository articles will be published.

Volume	22
Frequency	8
Print ISSN	0219-1997
Online ISSN	1793-6683
Backfiles	From 2001 onwards

## Discrete Mathematics, Algorithms and Applications

[www.worldscientific.com/dmaa](http://www.worldscientific.com/dmaa)

**Co-Editors-in-Chief**

**Ding-Zhu Du**, *University of Texas at Dallas, USA*

**Jinlong Shu**, *East China Normal University, Shanghai, China*

The aim of this journal is to advance and promote the theory and applications of discrete mathematics, which is a research area in mathematics with applications in computer science, industrial engineering, bio-informatics, chemistry and communication networks.

The journal encourages contributions from the two important parts of discrete mathematics, graph theory and combinatorics. The former includes structural graph theory, extremal graph theory, algebraic graph theory, random graphs and internet graphs. The latter consists of combinatorial design, combinatorial enumeration, coding theory, combinatorial probabilistic method, etc.

## Infinite Dimensional Analysis, Quantum Probability and Related Topics

[www.worldscientific.com/idaqp](http://www.worldscientific.com/idaqp)

**Managing Editor**

**L. Accardi**, *Università di Roma Tor Vergata, Italy*

*Infinite dimensional analysis and quantum probability* constitutes an essential and central point of reference for the large number of mathematicians, mathematical physicists and other scientists who have been drawn into these areas. Both fields have strong interdisciplinary nature, with deep connection to, for example, classical probability, stochastic analysis, mathematical physics, operator algebras, irreversibility, ergodic theory and dynamical systems, quantum groups, classical and quantum stochastic geometry, quantum chaos, Dirichlet forms, harmonic analysis, quantum measurement, quantum computer, etc. The journal reflects this interdisciplinarity and welcomes high quality papers in all such related fields, particularly those which reveal connections with the main fields of this journal.

## International Journal of Algebra and Computation

[www.worldscientific.com/ijac](http://www.worldscientific.com/ijac)

**Managing Editor**

**Benjamin Steinberg**, *City College of New York, USA*

*The International Journal of Algebra and Computation* publishes high quality original research papers in combinatorial, algorithmic and computational aspects of algebra (including combinatorial and geometric group theory and semigroup theory, algorithmic aspects of universal algebra, computational and algorithmic commutative algebra, probabilistic models related to algebraic structures, random algebraic structures), and gives a preference to papers in the areas of mathematics represented by the editorial board.

Volume	30
Frequency	8
Print ISSN	0218-1967
Online ISSN	1793-6500
Backfiles	From 2001 onwards

## International Journal of Biomathematics

[www.worldscientific.com/ijb](http://www.worldscientific.com/ijb)

**Editor-in-Chief**

**Lansun Chen**, *Xinyang Normal University, China*

The goal of this journal is to present the latest achievements in biomathematics, facilitate international academic exchanges and promote the development of biomathematics. Its research fields include mathematical ecology, infectious disease dynamical system, biostatistics and bioinformatics.

Volume	13
Frequency	8
Print ISSN	1793-5245
Online ISSN	1793-7159
Backfiles	From 2008 onwards

## International Journal of Geometric Methods in Modern Physics

[www.worldscientific.com/ijgmmp](http://www.worldscientific.com/ijgmmp)

### Managing Editor

**Salvatore Capozziello**, *Università Di Napoli "Federico II" Via Cinthia, Italy*

This journal publishes short communications, research and review articles devoted to all applications of geometric methods in all fields of Mathematical and Theoretical Physics, including in particular: Classical Mechanics ; Quantum Mechanics; Hamiltonian Systems of ODE's and PDE's and Integrability; Variational Structures of Physics and Conservation Laws; Thermodynamics of Systems and Continua; General Relativity and other Geometric Theories of Gravitation; geometric models for Particle Physics; Supergravity and Supersymmetric Field Theories; Classical and Quantum Field Theory; Gauge Theories; Topological Field Theories; Strings, Branes and Extended Objects Theory; Holography; Quantum Gravity, Loop Quantum Gravity and Quantum Cosmology; applications of Quantum Groups; Quantum Computation; Control Theory; Geometry of Chaos.

Volume	17
Frequency	14
Print ISSN	0219-8878
Online ISSN	1793-6977
Backfiles	From 2004 onwards

## International Journal of Mathematics

[www.worldscientific.com/ijm](http://www.worldscientific.com/ijm)

### Chair

**Yasuyuki Kawahigashi**, *University of Tokyo, Japan*

*The International Journal of Mathematics* has been publishing research papers of high quality on a wide range of topics in pure mathematics since March 1990 when we had the founding advisor, S. S. Chern. We are ready to consider original papers on any topics in pure mathematics, but have preference on the ones close to interest of the members of the editorial board such as algebraic geometry, number theory, complex geometry, differential geometry, symplectic geometry, topology, representation theory, complex analysis, operator algebras and probability theory.

Volume	31
Frequency	14
Print ISSN	0129-167X
Online ISSN	1793-6519
Backfiles	From 2001 onwards

## International Journal of Mathematics for Industry

[www.worldscientific.com/ijmi](http://www.worldscientific.com/ijmi)

### Editor-in-Chief

**Masato Wakayama**, *Kyushu University, Japan & Tokyo University of Science, Japan*

The journal publishes original research articles from authors worldwide that illustrate how, through the utilization of mathematical results, questions about industrial problems including various scientific questions potentially connected to industrial problems are answered to yield new insight for both industry and mathematics. The journal also publishes survey articles that address specific mathematics-for-industry topics from an original perspective.

Volume	12
Frequency	1
Print ISSN	2661-3352
Online ISSN	2661-3344
Backfiles	From 2019 onwards

## International Journal of Number Theory

[www.worldscientific.com/ijnt](http://www.worldscientific.com/ijnt)

### Managing Editors

**Yuri Bilu**, *Université de Bordeaux and CNRS, FRANCE*

**Michael Filaseta**, *University of South Carolina, USA*

**R. Sujatha**, *The University of British Columbia, CANADA*

This journal publishes original research papers and review articles on all areas of Number Theory, including elementary number theory, analytic number theory, algebraic number theory, arithmetic algebraic geometry, geometry of numbers, diophantine equations, diophantine approximation, transcendental number theory, probabilistic number theory, modular forms, multiplicative number theory, additive number theory, partitions, and computational number theory.

Volume	16
Frequency	10
Print ISSN	1793-0421
Online ISSN	1793-7310
Backfiles	From 2005 onwards

## Journal of Algebra and Its Applications

[www.worldscientific.com/jaa](http://www.worldscientific.com/jaa)

### Executive Editors

**S K Jain**, *Ohio University, USA and King Abdulaziz University, Saudi Arabia*

**S R López-Permouth**, *Ohio University, USA*

*The Journal of Algebra and Its Applications* will publish papers both on theoretical and on applied aspects of Algebra. There is special interest in papers that point out innovative links between areas of Algebra and fields of application. As the field of Algebra continues to experience tremendous growth and diversification, we intend to provide the mathematical community with a central source for information on both the theoretical and the applied aspects of the discipline. While the journal will be primarily devoted to the publication of original research, extraordinary expository articles that encourage communication between algebraists and experts on areas of application as well as those presenting the state of the art on a given algebraic sub-discipline will be considered.

Volume	19
Frequency	12
Print ISSN	0219-4988
Online ISSN	1793-6829
Backfiles	From 2002 onwards

## Journal of Hyperbolic Differential Equations

[www.worldscientific.com/jhde](http://www.worldscientific.com/jhde)

### Editor-in-Chief

**Philippe G. LeFloch**, *CNRS Sorbonne Université, France*

This journal publishes original research papers on nonlinear hyperbolic problems and related topics, of mathematical and/or physical interest. Specifically, it invites papers on the theory and numerical analysis of hyperbolic conservation laws and of hyperbolic partial differential equations arising in mathematical physics.

Volume	17
Frequency	4
Print ISSN	0219-8916
Online ISSN	1793-6993
Backfiles	From 2004 onwards

## Journal of Knot Theory and Its Ramifications

[www.worldscientific.com/jktr](http://www.worldscientific.com/jktr)

**Editor-in-Chief**

**L H Kauffman**, *Univ. of Illinois at Chicago, USA*

This Journal is intended as a forum for new developments in knot theory, particularly developments that create connections between knot theory and other aspects of mathematics and natural science. Our stance is interdisciplinary due to the nature of the subject. Knot theory as a core mathematical discipline is subject to many forms of generalization (virtual knots and links, higher-dimensional knots, knots and links in other manifolds, non-spherical knots, recursive systems analogous to knotting). Knots live in a wider mathematical framework (classification of three and higher dimensional manifolds, statistical mechanics and quantum theory, quantum groups, combinatorics of Gauss codes, combinatorics, algorithms and computational complexity, category theory and categorification of topological and algebraic structures, algebraic topology, topological quantum field theories).

Volume	29
Frequency	14
Print ISSN	0218-2165
Online ISSN	1793-6527
Backfiles	From 2001 onwards

## Journal of Mathematical Logic

[www.worldscientific.com/jml](http://www.worldscientific.com/jml)

**Managing Editors**

**Chit Tat Chong**, *National University of Singapore, Singapore*

**Theodore A Slaman**, *University of California, Berkeley, USA*

**W Hugh Woodin**, *Harvard University, USA*

**Yue Yang**, *National University of Singapore, Singapore*

*The Journal of Mathematical Logic* (JML) provides an important forum for the communication of original contributions in all areas of mathematical logic and its applications. It aims at publishing papers at the highest level of mathematical creativity and sophistication. JML intends to represent the most important and innovative developments in the subject.

Volume	20
Frequency	3
Print ISSN	0219-0613
Online ISSN	1793-6691
Backfiles	From 2001 onwards

## Journal of Topology and Analysis

[www.worldscientific.com/jta](http://www.worldscientific.com/jta)

**Managing Editors**

**Shmuel Weinberger**, *University of Chicago, USA*

**Guoliang Yu**, *Texas A&M University, USA*

This journal is devoted to topology and analysis, broadly defined to include, for instance, differential geometry, geometric topology, geometric analysis, geometric group theory, index theory, noncommutative geometry, and aspects of probability on discrete structures, and geometry of Banach spaces. We welcome all excellent papers that have a geometric and/or analytic flavor that fosters the interactions between these fields.

Volume	12

Print ISSN	1793-5253
Online ISSN	1793-7167
Backfiles	From 2009 onwards

## Mathematical Models and Methods in Applied Sciences

[www.worldscientific.com/m3as](http://www.worldscientific.com/m3as)

### Editors

**Nicola Bellomo**, *Politecnico di Torino, Italy*

**Franco Brezzi**, *MAT - CNR, Italy*

The purpose of this journal is to provide a medium of exchange for scientists engaged in applied sciences (physics, mathematical physics, natural, and technological sciences) where there exists a non-trivial interplay between mathematics, mathematical modelling of real systems and mathematical and computer methods oriented towards the qualitative and quantitative analysis of real physical systems.

Volume	30
Frequency	14
Print ISSN	0218-2025
Online ISSN	1793-6314
Backfiles	From 2001 onwards

## Open Systems & Information Dynamics

[www.worldscientific.com/osid](http://www.worldscientific.com/osid)

### Editor-in-Chief

**D. Chruściński**, *Nicolaus Copernicus University, Poland*

The aim of this journal is to promote interdisciplinary research in mathematics, physics, engineering and life sciences centered around the issues of broadly understood information processing, storage and transmission, in both quantum and classical settings. Our special interest lies in the information-theoretic approach to phenomena dealing with dynamics and thermodynamics, control, communication, filtering, memory and cooperative behaviour, etc., in open complex systems.

## Random Matrices: Theory and Applications

[www.worldscientific.com/rmta](http://www.worldscientific.com/rmta)

### Editors-in-Chief

**Zhidong Bai**, *Northeast Normal University, China*

**Yang Chen**, *University of Macau, China*

**Wang Zhou**, *National University of Singapore, Singapore*

*Random Matrices: Theory and Applications*, publishes high quality papers on all aspects regarding random matrices, both theory and applications. These areas will include, but not be limited to, spectral theory, new ensembles (those not generally considered in classical random matrix theory), and applications to a wide variety of areas, including high dimensional data analysis, wireless communications, finance, and economics. Only papers that contain original, innovative and correct results, which deepen our understanding on the theory of random matrices and its applications, will be considered for publications.

## Reviews in Mathematical Physics

[www.worldscientific.com/rmp](http://www.worldscientific.com/rmp)

### Editors-in-Chief

**Jacob Schach Møller**, Aarhus University, Denmark

**Antti Niemi**, Stockholm University, Sweden

*Reviews in Mathematical Physics* fills the need for a review journal in the field, but also accepts original research papers of high quality. The review papers - introductory and survey papers - are of relevance not only to mathematical physicists, but also to mathematicians and theoretical physicists interested in interdisciplinary topics. Original research papers are not subject to page limitations provided they are of importance to this readership. It is desirable that such papers have an expository part understandable to a wider readership than experts.

Volume	32
Frequency	10
Print ISSN	0129-055X

Backfiles	From 2001 onwards

## Stochastics and Dynamics

[www.worldscientific.com/sd](http://www.worldscientific.com/sd)

### Editor-in-Chief

**B Schmalzfuss**, Friedrich-Schiller-Universität Jena, Germany

This interdisciplinary journal is devoted to publishing high quality papers in modeling, analyzing, quantifying and predicting stochastic phenomena in science and engineering from a dynamical system's point of view.

Papers can be about theory, experiments, algorithms, numerical simulation and applications. Papers studying the dynamics of stochastic phenomena by means of random or stochastic ordinary, partial or functional differential equations or random mappings are particularly welcome, and so are studies of stochasticity in deterministic systems.

## Biophysical Reviews and Letters

[www.worldscientific.com/brl](http://www.worldscientific.com/brl)

**Managing Editors**

**Hans G. L. Coster**, *University of Sydney, Australia*

**P. C. Huang**, *Johns Hopkins University, USA*

**Zongchao Jia**, *Queen's University, Canada*

**Xiang-Yang Liu**, *National University of Singapore, Singapore*

**Zhongcan Ouyang**, *Chinese Academy of Sciences, P. R. China*

*The Biophysical Reviews and Letters* is an international peer-reviewed journal that publishes original research papers, review articles, brief communications and educational reviews in the field of experimental and theoretical Biophysics. It covers the whole area of Bionanoscience - including Biomolecules, Biocolloids (membranes, filaments, and minerals), Bioenergetics (molecular motors, growing filaments), Biofunctional, Bioinspired and Biomimetic Materials - as well as physical aspects of Structural and Molecular Cell Biology, Computational Biophysics, Bioinformatics, fundamental issues related to the Life Sciences, interdisciplinary Biological Physics utilizing methods from physics, chemistry, mathematics, computer sciences to resolve issues and challenges in biological science.

Volume	15
Frequency	4
Print ISSN	1793-0480
Online ISSN	1793-7035
Backfiles	From 2006 onwards

## Fertility & Reproduction

[www.worldscientific.com/fandr](http://www.worldscientific.com/fandr)

**Editor-in-Chief**

**Gab Kovacs**, *Monash University, Australia*

To disseminate research and clinical information in all areas of reproduction, especially in the Asia-Pacific Region.

Volume	2
Frequency	4
Print ISSN	2661-3182
Online ISSN	2661-3174
Backfiles	From 2019 onwards

## Hong Kong Physiotherapy Journal

[www.worldscientific.com/hkpj](http://www.worldscientific.com/hkpj)

**Editor-in-Chief**

**Marco Pang**, *Hong Kong Polytechnic University, Hong Kong*

HKPJ publishes papers related to all areas of physiotherapy (education, research, practice, policies) and is committed to facilitating communication among educators, researchers and practitioners in the field with the aim of promoting evidence-based practice. We are particularly interested in publishing randomized controlled trials, systematic reviews and meta-analyses.

Volume	40
Frequency	2
Print ISSN	1013-7025
Online ISSN	1876-441X
Backfiles	From 2018 onwards

## Journal of Bioinformatics and Computational Biology

[www.worldscientific.com/jbcb](http://www.worldscientific.com/jbcb)

**Managing Editor**

**Limsoon Wong**, *National University of Singapore, Singapore*

*The Journal of Bioinformatics and Computational Biology* aims to publish high quality, original research articles, expository tutorial papers and review papers as well as short, critical comments on technical issues associated with the analysis of cellular information.

The research papers will be technical presentations of new assertions, discoveries and tools, intended for a narrower specialist community. The tutorials, reviews and critical commentary will be targeted at a broader readership of biologists who are interested in using computers but are not knowledgeable about scientific computing, and equally, computer scientists who have an interest in biology but are not familiar with current thrusts nor the language of biology.

Volume	18
Frequency	6
Print ISSN	0219-7200
Online ISSN	1757-6334

## The American Journal of Chinese Medicine

[www.worldscientific.com/ajcm](http://www.worldscientific.com/ajcm)

**Editor-in-Chief**

**Chun-Su Yuan**, *University of Chicago, USA*

*The American Journal of Chinese Medicine*, which is defined in its broadest sense possible, publishes original articles and essays relating to traditional or ethnomedicine of all cultures. Areas of particular interest include:

- Basic scientific and clinical research in indigenous medical techniques, therapeutic procedures, medicinal plants, and traditional medical theories and concepts;
- Multidisciplinary study of medical practice and health care, especially from historical, cultural, public health, and socioeconomic perspectives;
- International policy implications of comparative studies of medicine in all cultures, including such issues as health in developing countries, affordability and transferability of health-care techniques and concepts;
- Translating scholarly ancient texts or modern publications on ethnomedicine.

Journal of the Asia-Pacific Federation of Societies for Surgery of the Hand

## The Journal of Hand Surgery: Asian-Pacific Volume

[www.worldscientific.com/jhs](http://www.worldscientific.com/jhs)

**Editor-in-Chief**

**Goo Hyun BAEK**, *Seoul National University, Korea*

*The Journal of Hand Surgery: Asian-Pacific Volume* is an international journal, written in English, devoted to injury and disease of the hand and upper limb and related research. The journal has been established to represent the thoughts and experiences of hand surgeons within the Asia-Pacific region. The journal will publish scientific articles, including case reports, articles on surgical techniques, letters to the Editor, and information regarding meetings and education programmes. The editorial board is drawn from hand surgeons of high standing throughout the world. The journal will accept submissions in English from all countries and will encourage contributions worldwide. It is intended that Hand Surgery reach the high standards attained by the British and European, and American volumes of the Journal of Hand Surgery, and that these three journals complement each other.

## Traditional Medicine and Modern Medicine

[www.worldscientific.com/tmmm](http://www.worldscientific.com/tmmm)

### Editors-in-Chief

Jingcheng Dong, *Fudan University, China*

Qi Zhang, *World Health Organization*

Traditional Medicine and Modern Medicine is an international journal that aims to give access to better communication and further integration among traditional medicines in China and abroad so as to promote the development of traditional medicines worldwide. Investigations into traditional medicines with the theories and techniques of modern medicines will enhance the integration between them, thus contributing to the advancement of medicine.

## Nano

[www.worldscientific.com/nano](http://www.worldscientific.com/nano)

### Editor-in-Chief

**Prof. Tsuneya Ando**, *Tokyo Institute of Technology, Japan*

NANO provides an ideal forum for presenting original reports of theoretical and experimental nanoscience and nanotechnology research. Research areas of interest include: nanomaterials including nano-related biomaterials, new phenomena and newly developed characterization tools, fabrication methods including by self-assembly, device applications, and numerical simulation, modeling, and theory. However, in light of the current stage development of nanoscience, manuscripts on numerical simulation, modeling, and/or theory only without experimental evidences are considered as not pertinent to the scope of NANO.

## WORLD SCIENTIFIC OPEN

## ABOUT WORLD SCIENTIFIC OPEN

Leveraging on the open access movement, WorldScientificOpen gives you unprecedented access to top-tier journals, books and proceedings.

WorldScientificOpen is in full compliance with the latest open access mandates so authors can ensure their research is freely available online, freely redistributed and reused.

## WORLD SCIENTIFIC OPEN JOURNALS

World Scientific currently publish more than 120 journals offering 'Gold' publishing options in either dedicated Open Access or hybrid journals.

For authors who wish to have their articles published under these hybrid journals, please indicate your open access preference preferably during the submission stage.

## BENEFITS OF WORLD SCIENTIFIC OPEN

- Accepted articles can choose to be on fast track publishing
- Copyright of the articles
  - are retained by the authors Published articles
  - are fully peer reviewed
  - are freely available online for everyone to access, read and download can be freely redistributed and reused under the terms of Creative Commons Attribution license (CC BY)
- Higher visibility and discoverability of the published articles on search engines and the major indexing services, with the possibility of being highly cited
- Long term preservation of the published articles in the scientific record, in services like PORTICO
- Compatibility with most open access policies globally
- On-going engagement with the global scientific community to work out practical solutions which will increase access to research and preserve the integrity of the scientific record

## Advances in Complex Systems

[www.worldscientific.com/acs](http://www.worldscientific.com/acs)

### Editor-in-Chief

**Frank Schweitzer**, *ETH Zurich, Switzerland*

*Advances in Complex Systems* aims to provide a unique medium of communication for multidisciplinary approaches, either empirical or theoretical, to the study of complex systems. The latter are seen as systems comprised of multiple interacting components, or agents. Nonlinear feedback processes, stochastic influences, specific conditions for the supply of energy, matter, or information may lead to the emergence of new system qualities on the macroscopic scale that cannot be reduced to the dynamics of the agents. Quantitative approaches to the dynamics of complex systems have to consider a broad range of concepts, from analytical tools, statistical methods and computer simulations to distributed problem solving, learning and adaptation.

## Fluctuation and Noise Letters

[www.worldscientific.com/fnl](http://www.worldscientific.com/fnl)

### Editor-in-Chief

**P V E McClintock**, *Lancaster University, UK*

*Fluctuation and Noise Letters* (FNL) is unique. It is the only specialist journal for fluctuations and noise, and it covers that topic throughout the whole of science in a completely interdisciplinary way. High standards of refereeing and editorial judgment are guaranteed by the selection of Editors from among the leading scientists of the field.

## e-Catalogues

[www.worldscientific.com/page/ecatalogues](http://www.worldscientific.com/page/ecatalogues)

## Fractals

[www.worldscientific.com/fractals](http://www.worldscientific.com/fractals)

### Managing Editors

**Nathan Cohen**, *Fractal Antenna Systems, Inc., USA*

**Tara Taylor**, *St. Francis Xavier University, USA*

**Subhrangshu S Manna**, *Satyendra Nath Bose National Centre for Basic Sciences, INDIA*

**Miroslav M Novak**, *Kingston University, ENGLAND*

**Boming Yu**, *Huazhong University of Science and Technology, P.R. China*

The investigation of phenomena involving complex geometry, patterns and scaling has gone through a spectacular development in the past decades. For this relatively short time, geometrical and/or temporal scaling have been shown to represent the common aspects of many processes occurring in an unusually diverse range of fields including physics, mathematics, biology, chemistry, economics, technology and human behavior.

The main challenge of the journal is devoted exclusively to the above kinds of phenomena lies in its interdisciplinary nature; it is our commitment to bring together the most recent developments in these fields so that a fruitful interaction of various approaches and scientific views on complex spatial and temporal behaviors in both nature and society could take place.

## International Journal of Bifurcation and Chaos

[www.worldscientific.com/ijbc](http://www.worldscientific.com/ijbc)

### Editor-in-Chief

**Guanrong (Ron) Chen**, *City University of Hong Kong, Hong Kong*

*The International Journal of Bifurcation and Chaos* is widely regarded as a leading journal in the exciting fields of chaos theory and nonlinear science. Represented by an international editorial board comprising top researchers from a wide variety of disciplines, it is setting high standards in scientific and production quality. The journal has been reputedly acclaimed by the scientific community around the world, and has featured many important papers by leading researchers from various areas of applied sciences and engineering.

## International Journal of Modern Physics A

[www.worldscientific.com/ijmpa](http://www.worldscientific.com/ijmpa)

### Managing Editors

**I Antoniadis**, *Univ. of Bern, Switzerland and Sorbonne Univ, France*

**A P Balachandran**, *Syracuse University, USA*

**L Brink**, *Chalmers University of Technology, Sweden*

**V A Rubakov**, *Inst. for Nucl. Res. of the Russian Acad. of Sci., Russia*

**P Sphicas**, *CERN, Switzerland & Univ. of Athens, Greece*

**I Tsutsui**, *High Energy Accelerator Research Organization (KEK), Japan*

Started in 1986, IJMPA has gained international repute as a high-quality scientific journal. It consists of important review articles and original papers covering the latest research developments in Particles and Fields, and selected topics intersecting with Gravitation and Cosmology. The journal also features articles of long-standing value and importance which can be vital to research into new unexplored areas.

## International Journal of Modern Physics B

[www.worldscientific.com/ijmpb](http://www.worldscientific.com/ijmpb)

### Editor-in-Chief

**Rongjia Tao**, *Temple University, USA*

Launched in 1987, the *International Journal of Modern Physics B* covers the most important aspects and the latest developments in Condensed Matter Physics, Statistical Physics, as well as Atomic, Molecular and Optical Physics. A strong emphasis is placed on topics of current interest, such as cold atoms and molecules, new topological materials and phases, and novel low dimensional materials. One unique feature of this journal is its review section which contains articles with permanent research value besides the state-of-the-art research work in the relevant subject areas.

## International Journal of Modern Physics C

[www.worldscientific.com/ijmpc](http://www.worldscientific.com/ijmpc)

### Managing Editors

**H J Herrmann**, *PMMH, ESPCI Paris, France*

**H Q Lin**, *Beijing Computational Science Research Center, China*

The scope of this journal covers Computational Physics, Physical Computation and related subjects. IJMPC aims at publishing both review and research articles on the use of computers to advance knowledge in physical sciences and the use of physical analogies in computation. Topics covered include: algorithms; astrophysics; atomic, molecular and chemical physics; computational biophysics; computational fluid dynamics; computer and information science; condensed matter physics, materials science; data analysis and computation in experimental physics; electromagnetism; high energy physics; nuclear and plasma physics; environmental physics; physical computation including neural nets, cellular automata and complex systems; quantum chemistry; statistical physics; symbolic manipulation; etc.

## International Journal of Modern Physics D

[www.worldscientific.com/ijmpd](http://www.worldscientific.com/ijmpd)

### Managing Editors

**Pisin Chen**, *National Taiwan University, Taiwan*

**Ruth Gregory**, *Durham University, UK*

**Konstantinos Kokkotas**, *Eberhard Karls University of Tuebingen, Germany & Aristotle University of Thessaloniki, Greece*

**Jorge Pullin**, *Louisiana State University, USA*

**Misao Sasaki**, *University of Tokyo, Japan*

Gravitation, astrophysics and cosmology are exciting and rapidly advancing fields of research. This journal aims to accommodate and promote this expansion of information and ideas and it features research papers and reviews on theoretical, observational and experimental findings in these fields. Among the topics covered are general relativity, quantum gravity, gravitational experiments, quantum cosmology, observational cosmology, particle cosmology, large scale structure, high energy astrophysics, compact objects, cosmic particles and radiation.

## International Journal of PIXE

[www.worldscientific.com/ijpixe](http://www.worldscientific.com/ijpixe)

### Editor-in-Chief

**K Ishii**, *Tohoku Univ., JAPAN*

*International Journal of PIXE* is a quarterly journal covering the latest developments in the various aspects of particle-induced X-ray emission (PIXE), including the fundamentals of this process, its applications and the techniques employed in different kinds of applications. It seeks to enhance cation between basic and applied scientists by compiling relevant research papers and review which would otherwise be widely dispersed in a number of specialized journals that cover PIXE only as one of the related subjects.

## Journal of Astronomical Instrumentation

[www.worldscientific.com/jai](http://www.worldscientific.com/jai)

**Editor-in-Chief**

**Giovanni G. Fazio**, *Harvard Smithsonian Center for Astrophysics, USA*

*The Journal of Astronomical Instrumentation (JAI)* publishes papers describing instruments and components being proposed, developed, under construction and in use. JAI also publishes papers that describe facility operations, lessons learned in design, construction, and operation, algorithms and their implementations, and techniques, including calibration, that are fundamental elements of instrumentation. The journal focuses on astronomical instrumentation topics in all wavebands (Radio to Gamma-Ray) and includes the disciplines of Heliophysics, Space Weather, Lunar and Planetary Science, Exoplanet Exploration, and Astroparticle Observation (cosmic rays, cosmic neutrinos, etc.).

## Journal of Nonlinear Optical Physics & Materials

[www.worldscientific.com/jnopm](http://www.worldscientific.com/jnopm)

**Editor-in-Chief**

**Iam-Choon Khoo**, *Pennsylvania State Univ., USA*

This journal is devoted to the rapidly advancing research and development in the field of nonlinear interactions of light with matter. Topics of interest include, but are not limited to, nonlinear optical materials, metamaterials and plasmonics, nano-phonic structures, stimulated scatterings, harmonic generations, wave mixing, real time holography, guided waves and solitons, bistabilities, instabilities and nonlinear dynamics, and their applications in laser and coherent lightwave amplification, guiding, switching, modulation, communication and information processing.

## China and the World

### Ancient and Modern Silk Road

[www.worldscientific.com/cwsr](http://www.worldscientific.com/cwsr)

The aim and mission of this journal is to become a platform where the profound implications of China's one belt one road initiative are to be explored and discussed. Comprehensive analysis of the historical, cultural, social, economic and political impact of the aforementioned initiatives will be provided through expertise and unique insight drawn from global subject experts in various fields.

## China Quarterly of International Strategic Studies

[www.worldscientific.com/cqiss](http://www.worldscientific.com/cqiss)

### Editor-in-Chief

Dongxiao CHEN, *Shanghai Institutes for International Studies, China*

*China Quarterly of International Strategic Studies* (CQISS), the flagship journal of Shanghai Institutes for International Studies (SIIS) (<http://en.sis.org.cn/>), focuses on, though is not confined to, strategic issues related to China's role in global affairs, highlighting the Chinese perspective on strategic issues with policy concerns. An international editorial board and the double-blind review process ensure the incisive and impartial analysis of its papers.

## East Asian Policy

[www.worldscientific.com/eap](http://www.worldscientific.com/eap)

### Editors

Zheng Yongnian & John Wong, *East Asian Institute, Singapore*

*East Asian Policy* (EAP) is an international journal published by the East Asian Institute, National University of Singapore in January, April, July and October on a quarterly basis. It examines and evaluates recent political, economic, societal, legal, cultural and foreign-policy trends in East Asia, particularly contemporary China, including Hong Kong, Macau and Taiwan. Articles covered are of significant relevance to the academia, policy makers and decision makers in the corporate world. With EAP, the Institute aims to provide them with the latest updates on developments in East Asia as well as offer them a useful platform for the global debate on the rise of East Asia.
